About the course:
This second-year course in Russian language and culture is a continuation of the first-year course and is intended to enhance overall communicative competence in Russian.

The main goal of this course is to expand and solidify student’s command of Russian vocabulary, grammar and spelling, and to develop intermediate-level listening, reading, conversational, and compositional skills. In particular, students will improve their ability to comprehend and exchange ideas with native speakers. Students will also express original ideas, report on various types of events, and conduct interviews in the language. The course incorporates a variety of activities and drills including dialogues, reading texts, role plays, language games, grammar and phonetic exercises, dictations, translations, interviews and discussion of topics.

By the completion of this course, students are expected to acquire an ACTFL proficiency level of “Intermediate Mid” or better in listening, speaking, reading, and writing.

They should be able to
• Initiate and maintain predictable face-to-face conversations and satisfy limited social demands.
• Create sentences and short paragraphs related to most survival needs, personal history, daily life, etc.
• Read material such as announcements of public events, simple prose containing biographical information or narration of events, and straightforward newspaper headlines.
• Understand short conversations about all survival needs and limited social demands.
In addition, the course is designed to help students recognize common knowledge, beliefs, attitudes, and behavioral patterns of the Russian people, and to comply (verbally and non-verbally) with Russian cultural norms.

**Program Structure:**
This class is divided into two sessions. The first session covers the material normally included in the fall semester. The second covers the material normally included in the spring semester.

You will receive two grades; one for each session.

**Auditing and Incompletes:**
Since CLI courses are tuition free, they cannot be taken for audit. There is no not-for-credit option. All students will receive a grade for their class. CLI does not issue grades of Incomplete. Students who do not complete coursework by the end of CLI will be graded normally, with a grade of zero for any assignment not completed.

**Class Time versus Homework:**
This intensive course relies heavily on work performed outside the class.

Class time concentrates on activities that you cannot perform effectively without the immediate feedback of an instructor, for example: conversation, structured oral drills, active listening comprehension, etc.

Activities for which no instructor is necessary will typically be performed as homework, for example: reading, writing, and composition; grammar, etc.
In particular, you will be expected to **read ahead** and to **work with material that has not yet been covered in class**. It is the student’s responsibility to learn assigned material before class, then come to class prepared to apply what they have learned. Instructors will not necessarily go over every homework topic in class. Instead, they will concentrate on topics that are particularly difficult or particularly important. Students are responsible for mastering every topic assigned, including topics not emphasized in class.

With a course moving at 5 times the usual speed, preparation is critical. Students who come to class unprepared will find it difficult to succeed.

**Participation:**
Since the course relies so heavily on listening and speaking practice, attendance and participation are mandatory and count toward your final grade.

Class participation will reflect the student’s daily preparation and active participation in class discussions. A student who is chronically late to class, leaves early, or is not prepared to participate will not receive full attendance and participation credit.

Students who miss more than **two classes** over the course of the 8-week session **without prior consent** of the instructor or ASU Resident Director will **receive a zero** for class participation and will be asked to **withdraw** from the course.

**Homework Grading:**
Homework is your opportunity to practice new structures. It is expected that you will make mistakes; you will not be marked down for doing so. As long as you complete your homework and turn it in on time, you will receive full credit.

**Academic Dishonesty:**
Academic honesty is expected of all students in all examinations, papers, laboratory work, academic transactions and records. The possible sanctions include, but are not limited to, appropriate grade penalties, course failure (indicated on the transcript as a grade of E), course failure due to academic dishonesty (indicated on the transcript as a grade of XE), loss of registration privileges, disqualification and dismissal.
